THE OHIEF OF POLICE'S SALARY .- One of the most important matters be-fore the Committee on Ordinances last night was the following resolution pre-sented at the last meeting of Council by Mr. Handlan, and referred to this meet-

ing for action:

Resolved, That the Committee on Ordinresidence on Sixteenth street.

The Stamm House dining hall is being rescoed by F. Lankan, of Baltimore.

ances report to Council an ordinance abolishing the fees of the City Sergeant, and paying in lieu thereof a salary, to take effect at the expiration of the term of the present incumbent.

Of the committee Messrs. Goodfellow, Hall, Caldwell, Horkheimer and Schultze were present, and this resolution caused a great deal of miscellaneous talk among them, but it was finally referred to the City Solicitor with instructions to prepare an ordinance in harmony with the resolu-

tion.

A reporter of this paper happened to be at the hall during the session of the committee and took advantage of the occasion to sound a few of the gentlemen as to their ideas of the matter of a salary for the sermr. John H. Hall said there were good

guant.

Mr. John H. Hall said there were good and bad points in the matter. The chief, under the present regime was like Selkirk "Monarch of all he surveyed," and was amenable only to Council. His revenue was derived principally from lees, the incentive to multiply arrests merely for the sake of the fees was great. On the other hand if the office was made a salaried one the incentive to duty might not be so strong, unless the incumbent happened to be a good man and acted for the best interest of the city. "I think myself that a Board-of Control, or rather three-commissioners, should be appointed, to whom should come all complaint, and who should have the confirmation of all appointments; in short, to have a complete supervision of the police department and to exercise the same power that similar boards do in other cities. He was very much in favor of a salary under these circumstances."

Alfred Caldwell, Esq., expressed himself in the same manner. Police commissioners could produce a very material change in our system of municipal police management. The incentive to make arrests under the present order of things was great, and to salary the chief might lessen this to an extent that would be detrimental to the city's interests, yet with an efficient Board of Control he was satisfied that the best plan would be to give the Sergeant a salary.

Mr. Horkheimer was of the same opi-

swer the charge of steamp oranges and satisfied that the best plan would be to honcy from Behrens & Co., on Tuesday last.

On Tuesday last Auctioneer Haller sold a lot on Caldwell's Run, near Chapline street, to John Westwood for \$240; also a lot on Wabash street, Island, to W. H. Chambers for \$225.

We are indebted to the committee in charge of the soldiers reunion, to be held at Martin's Ferry to-morrow night, for an structions of the resolution that initiates this article.

invitation. This promises to be a grand affair, and all eld soldiers from this city should go.

Anorder attempt was made last night to set Wheeling on fire. This time it was done by saturating a basket of clothes and firing them in the readence of Jos. S. Miller, Anditor of State. When the State officers are thus treated, it is getting to be time for the removal of the Capital.

Newell is blind of an eye and answers the description given by the man of his assailant, and he was also recognized by the driver of the car, which had all three of the parties in it on the night of robbery.

In regard to the comments of the Cincinnati Gazette on the opinion of City Solicitor Erskine on the wharfage question, published in yesterday's issue, Mr. Erskine says his opinion given to the City Council on the Constitutionality of the wharfage ordinance is exactly correct, and that the attorney in Newport, Ky, who wants to lend him a book, as indicated by the item we copied from the Gazette, is only proposing to furnish an additional case, decided by the United States Supreme Court, in support of that opinion. He says the Supreme Court decision sustains an ordinance like our old wharfage ordinance, and the United States Circuit Court decision which he mentioned in his opinion is upon an ordinance upon which the Council called for his opinion. He says he has no objection to its being understood by the public at large that an attorney at Newport, Ky, is prepared to furnish opinions of the Supreme Court of the United States upon request, but he prefers that when the announcement is made it shall not erroneously carry with it the suggestion that he has blundered in the performance of a public duty.
